

Easy Footer document

Thanks for download Easy Footer module form PrestaLove.com. This is document of Easy Footer module.

Description:

Footer region is where you can show many important information accross the site. Since it is not provided out-of-the-box, we offer you this Easy Footer module. As the name implies, it is very easy to use. It places four custom HTML boxes on the footer region of your Prestashop sites to show information such as:

- About our store
- Map to your store
- Links to important pages
- Contact info
- Social network icons
- Payment method
-

Please see our demo in real action: <http://demo.prestalove.com/easyfooter/>

Features:

- Display any HTML content (text, images, icons, links, table etc ...)
- Support multilanguage
- Customize layout with basic css options: float, width, margin, padding.
- Support Block list by add "**block-list**" for **Additional CSS classes** box.

1. Instation Custom Layout module.

- Unzip (decompress) the module archive file and, using your FTP software, place the folder in your PrestaShop /modules folder.
- Go to Back Office >> Modules.
- Locate the Custom Layout module in the list, scrolling down if necessary.
- In the row for the Custom Layout module, click Install.
- Locate the module again, click >> Configure.

2. How to use Custom Layout module.

Go to Back Office >> Modules and click to Configure of Custom Layout module.

Put name, title, content, class name, width, margin, padding of a block and then click to Add button.

Create Block

 Add/Edit Custom HTML Block

Name

Name of block

Title

Choose language:

Content

Path:

Float

<none>

Change the position of this block
