Brand	<input type="text"/>	Text label that shows on the top right of the menu
Header Color	<input type="text"/>	Custom color to use for the text foreground in the header of the menu, in hex. (ex: "#ff0000"). Leave blank for default.
Header Background	<input type="text"/>	Custom color to use as a background in the header of the menu, in hex. (ex: "#ff0000"). Leave blank for default.
Services to show in the compact menu	<input type="text"/>	Comma-separated list of services to show in the compact menu. Leave blank for default.
Services to exclude	<input type="text"/>	Comma-separated list of services to be excluded from the menu. Leave blank for default.
Services to show in the expanded menu	<input type="text"/>	Comma-separated list of services to be shown in the expanded menu. Leave blank for default.
Custom services to show in the menu	<input type="text"/>	Specify your own AddThis bookmarking service like so: {name: 'My Service',url: 'http://share.example.com?url={URL}',icon: 'http://example.com/icon.jpg'}. All three fields must be present for each custom service.
Menu Top Offset	<input type="text"/>	Vertical offset for the drop-down window (in pixels). Leave blank for default..
Menu Left Offset	<input type="text"/>	Horizontal offset for the drop-down window (in pixels). Leave blank for default..
Hover Delay	<input type="text"/>	Delay in opening of the compact menu in milliseconds (minimum 50, maximum 500). Leave blank for default.
Menu on click of the button	<input type="radio"/> Yes <input checked="" type="radio"/> No	If true compact menu will appear only upon click of the sharing button. Leave blank for default.
Menu open direction	<input checked="" type="radio"/> Auto <input type="radio"/> Up <input type="radio"/> Down	Normally, show the compact menu in the direction of the user's browser that has the most space. You can override this behavior with this setting.
Show address book	<input type="radio"/> Yes <input checked="" type="radio"/> No	If true, the user will be able import their contacts from popular webmail services when using AddThis's email sharing. Leave blank for default.
508 Compliant	<input type="radio"/> Yes <input checked="" type="radio"/> No	If true, clicking the AddThis button will open a new window to a page supporting sharing without JavaScript. Leave blank for default.
Track click backs	<input checked="" type="radio"/> Yes <input type="radio"/> No	Set to true to allow us to append a variable to your URLs upon sharing. We'll use this to track how many people come back to your content via links shared with AddThis. Highly recommended. Leave blank for default.
Hide Flash Content	<input checked="" type="radio"/> Yes <input type="radio"/> No	Temporarily hide flash objects that intersect the menu. Default is true.
Load AddThis CSS	<input checked="" type="radio"/> Yes <input type="radio"/> No	If false, we will not load our standard CSS file, allowing you to style everything yourself without incurring the cost of an additional load.
Google Analytics tracking object	<input type="text"/>	Google Analytics tracking object, or the name of a global variable that references it. If set, we'll send AddThis tracking events to Google, so you can have integrated reporting.
